

I wish to dispute the fact that programming through FM translators is of little value to our region. I am a supporter and listener of K-LOVE radio and would greatly miss the information, resources, and music enjoyed by their transmission to our area. K-LOVE provides me an alternative to local mainstream radio by allowing me to hear inspiring music, commentary without offensive DJ remarks and advertising. I appreciate the valuable services and information they provide including support of spiritual matters regarding my family, finances, community action, and my own spiritual life. This station is a truly positive contributor in a media that can be destructive and offensive to many. I support actions taken to protect its ability to broadcast over FM translators.
